Foreword

Nostalgic memories have their place in a year-book, but this year is not complete without its share of humor. For this reason, we have included both the serious and humorous aspects of our student life. To some, the school year of 1964-1965 was a culmination of achievement, and to others only a step up the ladder . . .

We have chosen the arrow, symbolic of direction, and the direction of our arrow is the future. Our enthusiasm was not dimmed by momentary disappointments, and like the arrow, our direction is to the future. Our hope is unlimited, our ambition is unbounded. Get the point?

Administration

BOARD OF DIRECTORS—*Standing:* Andrew W. Kovacs, Edward X. Hallenberg, William B. Cullen, Clifford M. Sweitzer, Edwin W. Elliott, Richard D. Snouffer, W. Robert Paynter, Superintendent. *Seated:*

Stanley A. Jarecki, Secretary, John E. Bush, Vice-President, Fred E. Barron, President, Mary B. Krogh, Edward R. Lawrence, Solicitor.

To the Class of 1965:

Many places today we read that the experts have called to our attention the tremendous rate at which knowledge is accumulating. One estimate considers that knowledge has doubled four times since 1 A.D.—by 1750, 1900, and 1960. It is further estimated that it will double again by 1965 or soon thereafter. I have no desire to attempt to verify these figures and I don't vouch for their accuracy. Suffice it to say that mere momentary reflection will convince anyone that the figures certainly approach accuracy.

You who are about to be graduated from high school must have become aware of this phenomenon. Perhaps this is one reason that you have had the foresight and good judgment to carry through to graduation. For this you are to be commended. If you really gave all you had to dedicated study toward acquiring as much knowledge as possible you are to be doubly commended. The highest accolade, however, must go to those who realize that learning must never cease. Read again the estimate of the accumulation of knowledge and then estimate how fast you must run just to stand still; how hard it will be just to keep up with this accumulation.

Our stake in your future bears a direct relationship to your commitment to a continuing program of education. At Baldwin you laid a foundation upon which you should be able to build a sound future as a good citizen in the fullest meaning of the term. Neither you nor your teachers can take any credit or comfort until this has been achieved.

To the 1965 Graduate:

To graduate from high school is a worthy accomplishment, providing you have taken full advantage of the many opportunities which were available. I want to extend my congratulations to each of you for this achievement and wish you success in all your future pursuits.

You face a most challenging and exciting future. The need for additional education is essential for every person who desires to accept responsibility. Some students will have the privilege of continuing their education in a college, university, or the likes. Others will need to begin immediately to learn by self-directed means. The resources for learning are more numerous than at any previous time and will continue to enlarge. Take advantage of the many printed materials, people who have ideas which they will share, and your own observations and experiences as you live one day at a time.

Make a determined effort to be a never-ending learner. Only through some form of continued education will you gain personal satisfaction and be able to assume responsible citizenship.

Brother Dinger!

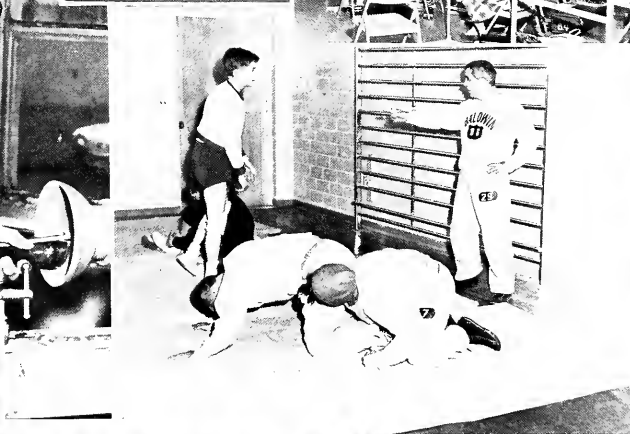

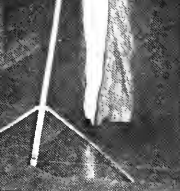

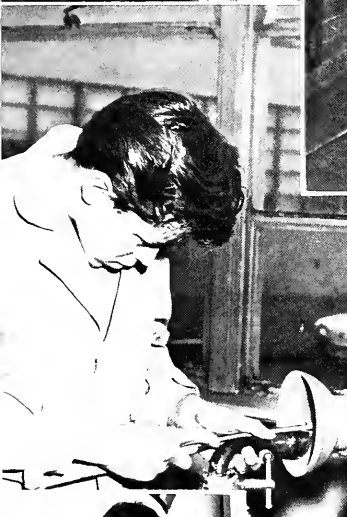

Just sitting listening to the Choral record bring
back many memorable memories of B.H.S.!!! Who, but
you, would get sick on stage, and one, hold you up from
falling. Not a great catch, but it borders on greatness.
So much for old times. Bob, I really can't express
how great it has been for me to have been really
close to you, and of how much of a truly great friend
you have been, and will always be in my book.

REMEMBER? E.X.A. - '65 - B.H.S. - A?? (Ahem) - Picnics -
AND OUR FRIENDSHIP FOREVER!!!

of the night. I really appreciated that. I think the worst part of going away is not the leaving, but the saying good-bye. You just don't say good-bye to a true friend.

I know we'll always be in touch, as long as I can help it. as the old saying goes, "IT'S BEEN REAL", real great to be best of friends with you. Brother, I wish you the best of luck at W.V.A.U., I know you'll be alright if you try. I hope there will be many times in the future that we will be able to get together and have a great time. I really guess I could write a whole book on some of the good times, but instead, let's just get together in the future on talk about them. This closes our chapter at ⁹¹ B.H.S. Let's find some way to start some new ones. Good luck and God Bless you, your Brother FOREVER, Emil

ACTIVITIES

While the seasons were progressing, so were our activities . . . as an arrow reaching for a point, our activities strived for their goals. Each activity had its purpose—to learn, to provide service and to have fun doing so. All had fun,

yet along with this went a deep learning experience that will remain for many years. We have tried to portray these fun-laden activities.

While the seasons were progressing, so were our activities. Beginning with grueling summer football practice, our education progressed as an advancing arrow, aided by the services of the Sound Squad and the contributions of the girls in the workroom as they prepared the printed page.

Football

Continuing its precedent of not having a losing season, the football team had another fine but grueling year. A few of the memorable thrills they provided for the fans were half-time entertainment, flipping the coin, calling time-outs, and bringing in the chain for first downs.

Our cross country team literally "streaked" through another successful season. More important than their winning season this year was the fact that Baldwin, on a cool, crisp, Saturday morning in October, became the cross country champions of Pennsylvania. The team carried Baldwin's colors to Penn State and sped to a resounding victory. We are proud of the boys and the way they represented our school at their various meets.

Wrestling

Against rigid opposition, our wrestling team used the following holds to great advantage: the nose extender, the ear tweeker, the neck-knotter, the body shortener, and the bear-hug. Coaches Matthews and DiGuilio, and the boys are to be congratulated on another hard-fought season.

Track

This fine athletic activity develops everlasting qualities. Triceps, biceps, and vocal cords are among the strengthened muscles. Their speed on the field is equalled only by the way they sprint between classes.

Golf

The next time you hear the sound of a ball crashing through glass, you'll know the golf team is at it again. The team had a good season last year, almost capturing the section championship. Coach DiGiulio, a great golfer himself, plans to take his junior duffers all the way this year.

Balthi

Diligent, persevering, untiring, brilliant . . . these words least describe the Balthi staff. The Staff, while appearing to be busy scurrying about doing their respective jobs was, in reality, smuggling contraband from the Faculty room.

The arrow has found its mark;
we have come to the end of the
school year and the end of the
book. We have depicted the
scenes, the feel, and the tem-
per of Baldwin. We hope that

with
so many
scenes we
have captured a
favorite memory of
your school life at BHS.
Hail and farewell . . .
good fortune
follow
you.

SENIOR CLASS OF '65

The Balhi has many anonymous friends. We thank them all.

Each * indicates an additional contribution of one dollar

*Oh, I have roamed O'er many lands
And many friends I've met;
Not one fair scene or kindly smile
Can this fond heart forget.*

T. H. Bayly

We wish to extend our sincere thanks to those whose advice or help has been invaluable: Mr. Agate and Mr. Phillips of Terrace Arcade Studios, and Mr. F. Peterson and Mrs. Jewell M. Gates of Wm. J. Keller Inc.
